...SHE BREATHES IN HER CHILDREN ACROSS THE GLOBE

Education is the only thing in the world which cannot be stolen away from you. It plays an integral part in making the person you become. Grades and marks don't determine the success of a person's life. It is the knowledge and depth in a person that makes him/her successful in being an extra-ordinary human being. Life is a journey filled with adventures, so enjoy the adventure and make the best of every opportunity given.

A person who dreams is a person who lives, don't be afraid to pursue your dreams but always remember that dreams only come true when you are true to your responsibilities and know your priorities. The most important thing in life is to become a good human being first. Love, Live, Dream and Spread your essence in the world.
